M4

4 PISTON CALLIPER HYDRAULIC DISC BRAKE SET MTB, DOWNHILL & E-BIKES

New for 2022, the M4 is a new 4 piston brake system from Clarks. Our most powerful brake produced to date, the M4 is lightweight with a slimline design, and 4x16mm pistons per calliper, each delivering smooth, powerful, modulated braking force at the rotors. Perfect for all riding conditions encountered by the adventurous downhill rider, city commuter and e-bike rider, the M4 is the ideal brake system for more challenging environments where 'feathering' is required.

- 4 Piston hydraulic brake system for MTB, downhill riders and e-bikes
- Lightweight design
- High quality finish
- Self adjusting 16mm pistons
- 2 Finger lever
- Lever reach adjustment to suit all hand sizes
- International standard and Post mount fit
